

NGUYEN THI MINH THU

QA/QC ENGINEER

033 764 7619 | thu.ntm0201@gmail.com | Thu Duc, Ho Chi Minh city

OBJECTIVE

With 3+ years of experience in software testing, with strong expertise in ERP management systems and payment platforms, I aim to advance my career by leveraging my skills to ensure product quality, enhance user experience, and deliver high-quality software solutions across diverse domains.

PROFESSIONAL EXPERIENCE

Quality Assurance - ATOM SOLUTION

July 2023 - Present

ERP & CRM:

- **Expertise:**
 - Collaborated with cross-functional teams to analyze requirements, proposing solutions to optimize business workflows and User Experience.
 - Executed end-to-end testing for multi-modal payment methods (E-com, POS, Soundbox, online payment gateways) and e-invoice integrations. Validated multi-channel notification systems (ZNS, Email) to ensure accurate template rendering, data integrity, and real-time delivery.
 - Successfully launched the system for 4 major educational institutions, closely coordinating with key banking partners (OCB, BVB, mPAY).
 - Leveraged AI-driven automation to accelerate regression testing cycles and improve overall efficiency.
 - Supported the system's scalability by expanding operations into the Real Estate and Healthcare sectors.
- **Testing:** Conducted comprehensive manual testing and maintained robust test suites. Proficient in API and backend testing. Executed cross-browser and cross-device testing across web, mobile platforms, and specialized payment hardware.
- **Docs:** Authored and maintained Test Cases, Checklists, Test Scenarios, Test Reports, and User Guidelines.
- **Tools:** Postman, Odoo, Playwright, Microsoft Office, internal management tools.
- **Featured Projects:** Education Platform (Team Size: ~20)

Web 3 - Blockchain:

- **Expertise:** Experienced in Web3 and crypto platforms, focusing on wallet-based transactions, NFT features, token swap, and bridge mechanisms. Strong understanding of transaction lifecycle, gas fees, and user asset flows.
- **Testing:** Writing test cases for Function, API testing, backend validations, execute test cases, performing cross-browser testing and cross-device testing, testing on web, mobile.
- **Docs:** Create Testcase, Checklist, Test scenario, and Use Guidelines.
- **Tools:** Postman, Swagger, Jira.
- **Featured projects:** Boostus LG Plus (Team Size: ~30), DWF Liquid Markets (Team Size: ~30), TON trading bot (Team Size: ~15), Lido streaming (Team Size: ~10), TrigSeg (Team Size: ~20)...

Other:

- Participate in obtaining ISO 20000-1, 27001, and 22301 certifications for the company.
- Participate in the recruitment, planning, and training of other team members.
- Other tasks and reports as required by superiors.

Manual Tester - VETGO

January 2023 - July 2023

A management system designed for veterinary clinics, combining POS, inventory management, appointment scheduling, medical records, and customer engagement via Zalo integration.

Responsibility:

- Develop test plans, create and conduct manual testing via test cases, checklists.
- Provide bug descriptions and collaborate closely with developers to identify root causes of product defects.
- Suggest and provide ideas for product improvement.
- Customer support using software.

STRENGTHS AND EXPERTISE

- **Testing:** UI/UX, Function, API, Performance, Retesting & Regression, Smoke Testing
- **Documentation Skills:** Checklist, Test scenario, Test Cases, Test Reports, Test Plan, User Guide
- **Programming/Scripting:** HTML/CSS, SQL Server, Javascript
